Faster onboarding. Smarter setup.

Cadmium

Our hands-on implementation service gets your Cadmium Eventscribe module up and running, quickly and correctly. We configure each module to match your event's specific needs, helping you reduce setup time and avoid common pitfalls.

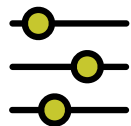

Personalized consultation

We work closely with you to understand your event objectives. We carefully review your needs and goals to provide tailored recommendations for your tech setup.

Comprehensive Eventscribe product setup and onboarding

We build your product with customized settings for optimal performance, aligning best practices with your event goals.

**You manage the event.
We'll handle the tech.**

ABSTRACT SCORECARD

Scorecard Configuration

- Build the Eventscribe Abstract Scorecard, including:
 - Custom submission forms based on event-specific requirements.
 - Scoring rubrics and reviewer criteria provided by the client.*
- Set up Scorecard email templates (max: 10 templates).
- Custom branding and client-specific language where applicable.
- This does not include any financial set up.

Testing and Quality Assurance

- Conduct end-to-end testing of the submission and scoring process.
- Review and validate form fields, scoring calculations, and data capture.
- Adjust configurations based on client feedback prior to launch.

Training

- Provide client staff with 1-hour Zoom training on using the scorecard, including managing submissions, reviewer assignments, and reporting. Zoom training will be recorded and shared with the client.

Launch and Support

- Oversee the launch of the abstract scorecard, including final testing and live site verification.
- Provide real-time support for the first week post-launch to address any issues.
